RESPONSE TO RESTRICTION/ELECTION REQUIREMENT

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313

Sir:

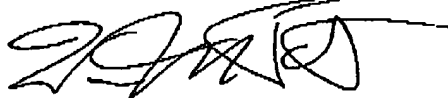

Responsive to the Restriction/Election Requirement mailed November 30, 2005, Applicant hereby elects with traverse Group I (i.e., claims 1-10). Should the examiner reconsider, Applicant would preferably elect Groups I and III (i.e., claims 1-10 and 33-61).

Applicant finds that Groups I and III are directed to a common invention. As stated in the Restriction/Election Requirement, Groups I and III are contained with the same class and subclass. Moreover, Applicant finds claim 1 to be generic, reading on claim 33 and its associated dependents. Building on the limitations of claim 1, claim 33 only appears to add a control system for monitoring pH levels and the requirement that the solid-based sulfurous generator include a hydraulic air inlet shut off valve. Accordingly, Applicant respectfully requests reconsideration of the Requirement and allowance of Applicant's election of Groups I and III (i.e., claims 1-10 and 33-61).

Having fully responded to the examiner's Action and made the required election, Applicant asserts that early action on the merits of the elected claims is now in order.

DATED this 28<sup>th</sup> day of December, 2005.

Respectfully submitted,

A. John Pate, Reg. No. 36,234  
Warren M. Pate, Reg. No. 54,364
